MOTIVACIÓN

Pixabay (2020)

- Promover las buenas prácticas en la investigación
- Mejorar la calidad de la colecta de la información
- Acelerar proceso de análisis de los resultados
- Promover la investigación en los jóvenes

QuipoLab ⇒ Proyecto *inkaverse*

inti

The 'inti' package is part of the 'inkaverse' project for developing different procedures and tools used in plant science and experimental designs. The main aim of the package is to support researchers during the planning of experiments and data collection 'tarpuy()', data analysis and graphics 'yupana()', and technical writing. Learn more about the 'inkaverse' project at <https://inkaverse.com/>.

Installation

To install the stable version from CRAN:

```
install.packages("inti")
```

To install the latest development version directly from GitHub:

```
if (!require("remotes"))  
  install.packages("remotes")  
remotes::install_github("flavjack/inti")
```

If you need install an specific version:

```
if (!require("remotes"))  
  install.packages("remotes")  
remotes::install_version("inti", version = "0.4.4")
```
