

Flavio Lozano Isla

AGRONOMIST | PLANT BREEDER | DOCTORAL CANDIDATE

Los Higos 144 Int 101 - La Molina, Lima, Peru

+51 999997400 | flozano@lamolina.edu.pe | lozanoisla.com | [Flavjack](#) | [flavjack](#)

Profile

Agronomist specialized in plant breeding with expertise in the areas of data science and bioinformatics.

RESEARCH INTEREST:

|> Plant breeding | Data science | Bioinformatics | Reproducible research | Seed science | Crop genetic resources <|

Education

Doctoral candidate in Agricultural Sciences

Germany

UNIVERSITY OF HOHENHEIM

2020-04-01 to present

- Project: "Utilizing the genetic diversity of Peruvian quinoa landraces for breeding improved varieties". At the Crop Plant Biodiversity and Breeding Informatics group at the Institute of Plant Breeding, Seed Science and Population Genetics.

Master of Science in Botany

Brazil

FEDERAL RURAL UNIVERSITY OF PERNAMBUCO

2015-02-01 to 2017-02-01

- Honor thesis: "Germinação de Jatropha Curcas L. sob envelhecimento/salinidade e desenvolvimento do pacote para análise de dados de germinação – GerminaR". At the Plant Ecophysiology and Seed Science group at Ecophysiology Laboratory.

Agronomy Engineer

Peru

UNIVERSIDAD AGRARIA LA MOLINA

2015

- Honor thesis: "Evaluation of physiology and water use efficiency of fifteen potatoes (*Solanum tuberosum*) genotypes under drought stress treatment". At the Abiotic Stress group at the Genetic and Crop Improvement Global Program at CIP

Bachelor of Science in Agronomy

Peru

UNIVERSIDAD AGRARIA LA MOLINA

2007-08-01 to 2012-12-20

Teaching Experience

Professor

Peru

UNIVERSIDAD AGRARIA LA MOLINA

2021-01 to present

- Professor at the Faculty of Agronomy, Department of Agricultural Sciences. Lecturer of Plant Breeding, Agrotechnics and Botany courses

Invite Professor

Peru

UNIVERSIDAD INTERCULTURAL DE QUILLABAMBA

2020-12 to 2021-01

- Reproducible research lectures and use of interactive web apps with R + Rstudio

Assistant Professor

Brasil

FEDERAL RURAL UNIVERSITY OF PERNAMBUCO

2016-06 to 2016-11

- Seed science lectures using experimental designs and trial evaluations

Work experience

Research Assistance

Germany

UNIVERSITY OF HOHENHEIM & KWS

2017-02-20 to 2020-09-30

- Management of a PhD project at the University of Hohenheim entitled "Utilizing the genetic diversity of Peruvian quinoa landraces for breeding improved varieties". Project funded by KWS for capacity development in Peru. Responsible for project management for the development of a quinoa breeding program in the Peruvian Altiplano. Management and planning of field and greenhouse trials with students and farmers from different communities of the Peruvian Altiplano. Analysis of phenotypic and molecular data for the characterization and study of quinoa biodiversity in Peru. Supervising bachelor and master students in the development of their research work within the project.

Research Assistance Junior

INTERNATIONAL POTATO CENTER

Peru

2014-03-17 to 2015-02-28

- Planning of abiotic stress experiments on potato under field and greenhouse conditions in different regions of Peru. Management and analysis of experimental data using R statistical software. Presentation of seminars on drought stress and crop water management using CropWat. Implementing and improving evaluation protocols for drought stress trials. Use of precision equipment for evaluation of physiological parameters (i.e SPAD, Dew Point Microvoltmeter, meteorological stations, Fluorometer and Portable Photosynthesis System).

Internship

INTERNATIONAL POTATO CENTER

Peru

2012-11-21 to 2014-02-21

- Responsible for the evaluation of drought and water use efficiency experiments in potato under field and greenhouse conditions. Use of precision equipment for evaluation of physiological parameters (i.e SPAD, Dew Point Microvoltmeter, meteorological stations). Implementation and improvement of protocol for leaf area and relative water content measurement.

Crop manager

CROPS PERU SAC

Peru

WORKS IN PROGRESS:

Lozano-Isla, F. (2023). High-throughput phenotyping pipeline for quinoa (*Chenopodium Quinoa*) panicles using Mask R-CNN.

Lozano-Isla, F. (2023). Implementing a journal club as a teaching-learning strategy for plant genetics lectures during the COVID-19 pandemic.

Lozano-Isla, F. (2023). QTL mapping for yield-related traits in quinoa (*Chenopodium Quinoa*) based on three related populations.

PATENTS:

Lozano-Isla, F., Benites Alfaro, O., & Pompelli, M. F. (2016). *GerminaQuant for R* (Patent BR 51 2016 001327-3).

R PACKAGES:

inti	0.6.2
TOOLS AND STATISTICAL PROCEDURES IN PLANT SCIENCE	2023-09-02
• The ‘inti’ package is part of the ‘inkaverse’ project for developing different procedures and tools used in plant science and experimental designs. The mean aim of the package is to support researchers during the planning of experiments and data collection (tarpuy()), data analysis and graphics (yupana()) , and technical writing. Learn more about the ‘inkaverse’ project at < https://inkaverse.com/ >.	
huito	0.2.3
REPRODUCIBLE AND FLEXIBLE LABEL DESIGN	2023-07-04
• An open-source R package to deploys reproducible and flexible labels using layers. The ‘huito’ package is part of the ‘inkaverse’ project for developing different procedures and tools used in plant science and experimental designs. Learn more about the ‘inkaverse’ project at < https://inkaverse.com/ >.	
GerminaR	2.1.4
INDICES AND GRAPHICS FOR ASSESS SEED GERMINATION PROCESS	2022-05-18
• A collection of different indices and visualization techniques for evaluate the seed germination process in ecophysiological studies (Lozano-Isla et al. 2019) < doi:10.1111/1440-1703.1275 >.	

Honors

RENACYT researcher	Peru
CONSEJO NACIONAL DE CIENCIA, TECNOLOGÍA E INNOVACIÓN TECNOLÓGICA (CONCYTEC)	2019-10
• Qualified as a level 6 researcher in Peru by CONCYTEC with code P0052830.	
Ph.D. Fellowship	Germany
KWS SAAT SE & UNIVERSITY OF HOHENHEIM (UHOH)	2017-02
• Project for capacity development in Peru entitled “Utilizing the genetic diversity of Peruvian quinoa landraces for breeding improved varieties” in the research group of Crop Biodiversity and Breeding Informatics at the University of Hohenheim.	
Master Fellowship	Brasil
COORDENAÇÃO DE APERFEIÇOAMENTO DE PESSOAL DE NÍVEL SUPERIOR (CAPES)	2015-02
• Project to study of Jatropha curcas under salinity stress at the research group of the Plant Ecophysiology Laboratory at the Federal University of Pernambuco.
